

TRI-STATE METALS, INC.

PRODUCTION POWDER COATING

Automated for Consistency

Millions of Color Options

Efficient System for Large Orders

Capabilities:

- Automated Systems for Consistency**
High-volume production relies on automated powder coating lines that provide uniform coverage and consistent quality across hundreds or thousands of pieces. Advanced equipment ensures minimal waste while maintaining precise application.
- Rapid Turnaround**
With streamlined workflows, high-volume powder coating can meet tight deadlines without sacrificing quality. Our systems are optimized to handle large orders efficiently.
- Durable, Repeatable Finishes**
The coatings applied in high-volume production are designed to endure rigorous use, with finishes that resist chipping, corrosion, and fading.

Typical Applications

- Automotive components
- Consumer electronics casings
- Industrial machinery parts

Advantages

- Cost effective for large orders
- Consistent quality across multiple projects
- Scalable for recurring projects

Why Choose Tri-State Metals?

- **Experienced Professionals:** Our skilled team brings years of expertise to every project, ensuring superior results.
- **On-Site Convenience:** Save time and hassle with our in-house powder coating services.
- **Customization Options:** Choose from a wide range of colors and finishes to suit your unique style and needs.
- **One Stop Shop for All Metal Services:** Tri-State Metals provides premium metal supplies and value-added services, including CNC laser cutting, high-definition plasma cutting, CNC router capabilities, saw cutting & bundling, welding, and powder coating.
- **Pick Up and Delivery:** All orders placed can be delivered or picked up at your business or job site. Our fleet of trucks delivers to North West Alabama, Southern Tennessee, and North East Mississippi.
